AUTOMATED REPORTING SERVICE

## Automated Reporting

All Schools with Health Portal+PLUS can access *enhanced automated spreadsheet reports*.

## Report Contents

Items that are available for reporting:

- Name
- Email
- Student ID (ask about setup)
- Classification
- Clinical Site Sharing
- Class / Program / Campus
- Last Full Compliance Date
- Docs / Requirements completed with a % tally of completion
- Overall Compliance Status
- Individual Item Status for all Health Portal Requirements and Documents
- Expiration Dates or Next Action Date
- Background Check Status / Order Date
- Drug Test Status and Order Date

## HEALTH PORTAL+PLUS

*Enhanced Reporting:*

- Titer Dates
- Vaccine Dates
- Vaccine Manufacturer
- Administration Dates
- Positive / Negative Titer Status

## REPORT USAGE + TIPS

**SPREADSHEET FUNCTIONALITY:** Reports can be sorted and manipulated in the same manner as traditional spreadsheets.

### **SORTING / SINGLE REQUIREMENT**

**TRACKING:** Administrators can search for individual item compliance by using the filters and/or sorting within the spreadsheet. For example, you could sort the Results List to show only Non-Compliant students, run a report, and then sort by the Influenza column, to view students that had not yet fulfilled that requirement.

**AUDITS:** Run a report on your archived students at any time to show historic data when needed. These reports can be downloaded and shared with authorized entities.

Contact Your Account Representative to add or upgrade your Health Portal to Health Portal+PLUS .
